

Wildfire Resource

For providers who were displaced by the recent Southern California fires, we hope this message finds you safe and well during what we know is an extremely difficult time. The devastation caused by the fires has been heartbreaking, and we want to express our deepest sympathies to you, your staff, and your patients who may have been affected by this crisis. We understand that the challenges you're facing are immense, and we want to reassure you that VCHCP is committed to supporting you during this time.

For providers who were displaced, the Plan will:

- Extend the duration of existing prior authorizations by 180 calendar days so providers can focus on providing care to enrollees rather than having to re-request prior authorization for previously authorized services.
- Extend the minimum timeframe for contracted and non-contracted providers to submit claims from 180 to 365 days from the date of service. Please let us know if you are experiencing difficulties in submitting timely.
- Allow up to 180 calendar days to dispute the Plan's recoupment of an overpaid claim.
- If needed, for up to a 6-month period, we will allow you to deliver care from an appropriate alternative setting, such as a mobile clinic or temporary location.
